bookings)

ABOUT THIS COURSE

This programme is designed to equip learners with the knowledge and practical skills required to ensure workplace preparedness and effective risk control for communicable and occupational diseases, including COVID-19.

Participants will gain an understanding of occupational health and safety (OHS) legislation, workplace hazard identification, and risk assessment processes. The course focuses on implementing prevention, control, and containment measures to maintain a safe and healthy working environment.

Learners will be trained to identify workplace hazards, conduct risk assessments, and apply appropriate safety protocols to protect employees and reduce the spread of diseases. The programme also emphasizes workplace readiness, employee well-being, and compliance with health and safety regulations.

DAY ONE

OVERVIEW

SMART ZONE

OHS LEGISLATION & COMPLIANCE

- Understanding key occupational health and safety laws
- Roles and responsibilities of employers and employees
- Importance of compliance in preventing workplace incidents

INTRODUCTION TO COMMUNICABLE & OCCUPATIONAL DISEASES
