

SAIOSH OCCUPATIONAL HEALTH & SAFETY LEARNERSHIP

Learnership-style programme brochure for workplace safety, compliance awareness and practical incident-response capability.

Programme overview

This version reframes the original safety master-class content as a SAIOSH-branded learnership brochure with stronger emphasis on workplace readiness, learner support and structured skills application.

Ideal for

Workers, supervisors, SHE representatives, junior safety officers, team leaders, site coordinators, trainees and employers building practical safety capability.

What this learnership covers

- Occupational health and safety legislation, duties and general workplace compliance principles.
- Roles and responsibilities of employers, supervisors, teams and learners in maintaining a safe work environment.
- Hazard identification, risk assessment, workplace inspections and incident investigation basics.
- Safety management systems, emergency preparedness, reporting discipline and audit readiness.

- Corrective actions, communication practices and continuous improvement in safety performance.

WORKPLACE READY	COMPLIANCE FOCUSED	PRACTICAL SKILLS
-----------------	--------------------	------------------
