ABOUT THIS COURSE

This course equips learners with the knowledge and practical skills to conduct issue-based risk assessments within a workplace environment. Learners will gain an understanding of hazard identification, risk assessment procedures, workplace safety requirements, and corrective actions needed to minimise risks and maintain a safe working environment.

The course focuses on planning and conducting risk assessments, identifying hazardous conditions, implementing remedial actions, and ensuring compliance with Occupational Health and Safety requirements in the workplace.

Target Audience

- Safety Officers and Safety Representatives
- Occupational Health and Safety Practitioners
- Supervisors and Team Leaders
- Employees responsible for workplace safety
- Mining, construction, and industrial workers
- Individuals involved in hazard identification and risk management
- Learners pursuing a career in Occupational Health and Safety

PRICE

Classroom Training :
R 1350 Excl. Vat

(Includes snacks and beverages
– only applicable to classroom
bookings)

TOPICS COVERED

SMART ZONE

LEGAL REQUIREMENTS AND WORKPLACE SAFETY RESPONSIBILITIES

Understand the legal responsibilities of employers and employees regarding workplace health and safety, including compliance with Occupational Health and Safety requirements.

HAZARD IDENTIFICATION AND RISK ASSESSMENT PRINCIPLES

Learn the fundamentals of hazard identification, risk assessment procedures, and the importance of maintaining a safe working environment.

TYPES OF WORKPLACE HAZARDS AND RISKS

Identify different workplace hazards, unsafe conditions, and the risks associated with various work environments.

PLANNING AND PREPARING FOR RISK ASSESSMENTS

Learn how to prepare for issue-based risk assessments, including gathering workplace information, reviewing standards, and using the correct procedures.

PERSONAL PROTECTIVE EQUIPMENT (PPE) AND SAFETY MEASURES

Understand the correct use of PPE and safety precautions required during workplace inspections and risk assessments.

WORKPLACE STANDARDS AND COMPLIANCE REQUIREMENTS

Gain knowledge of company safety standards, workplace procedures, and legal compliance requirements related to risk assessments.

TOPICS COVERED

SMART ZONE

CONDUCTING WORKPLACE RISK ASSESSMENTS

Learn how to inspect work areas, identify hazards, assess risks, and determine the level of risk within a workplace environment.

RECORDING AND REPORTING HAZARDOUS CONDITIONS

Develop skills to accurately record hazards, complete reports, and document findings according to workplace requirements.

CORRECTIVE AND PREVENTATIVE ACTIONS

Learn how to recommend and implement corrective actions to minimise workplace risks and improve safety conditions.

FOLLOW-UP ACTIONS AND RISK CONTROL MEASURES

Understand the importance of monitoring risks, implementing follow-up actions, and ensuring ongoing workplace safety improvements.

WORKPLACE COMMUNICATION AND TEAMWORK

Improve communication and teamwork skills required for effective workplace safety coordination and reporting.

PRACTICAL RISK ASSESSMENT ACTIVITIES AND CASE STUDIES

Apply knowledge through practical activities and workplace case studies focused on hazard identification, risk assessment, and safety improvement processes.

KEY

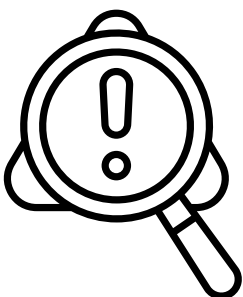

SMART ZONE

FEATURES

- Hazard Identification and Risk Assessment (HIRA) Focus
- Workplace-Based Risk Assessment Training
- Occupational Health and Safety Compliance Training
- Practical Workplace Safety Applications
- Hazard Identification and Risk Control Skills
- Corrective and Preventative Action Procedures
- Workplace Inspection and Reporting Training
- Industry-Relevant Safety Knowledge
- Practical Case Studies and Risk Assessment Activities
- Improves Workplace Safety Awareness and Compliance

BENEFITS OF THIS SHORT COURSE

- Builds practical hazard identification and risk assessment skills
- Improves workplace safety awareness and compliance
- Develops risk control and incident prevention knowledge
- Enhances workplace inspection and reporting abilities
- Strengthens Occupational Health and Safety understanding
- Provides practical workplace safety applications
- Helps reduce workplace hazards and accidents
- Improves overall workplace safety and risk management practices
