NQF Level 5 CPD Points 2

ABOUT THIS COURSE

An Occupational Health and Safety Practitioner serves as a facilitator and advisor to employees and management regarding workplace health and safety.

This qualification equips learners with the knowledge and practical skills to identify workplace hazards, minimise risks, investigate incidents, maintain health and safety systems, and ensure compliance with Occupational Health and Safety legislation. Learners will gain practical workplace experience in risk management, safety inspections, incident reporting, emergency preparedness, and the implementation of Occupational Health and Safety Management Systems to create safe and healthy working environments across various industries.

Target Audience

- Aspiring OHS Practitioners
- Safety Officers and Coordinators
- Health and Safety Representatives
- Supervisors responsible for workplace safety
- Employees in risk management and compliance
- Learners wanting a career in Occupational Health and Safety

PRICE
