ABOUT THIS COURSE

This course prepares learners to operate as Natural Energy Healing Practitioners by developing the knowledge and practical skills needed to support and facilitate holistic client wellbeing through natural energy healing principles and practices.

Learners will gain an understanding of generic energy healing studies, human anatomy and physiology, EFT Tapping, Reiki, Crystal Healing, Access the Bars, Applied Metaphysics, Energy Kinesiology, Heart Resonance Energy Healing, and the BodyTalk Energy Healing System.

The programme combines theory, practical skills, and workplace experience to ensure learners are able to establish professional energy healing services, conduct client consultations, maintain client records, and facilitate client wellbeing in a public or private practice context.

Target Audience

- Chemical Plant Controllers
- Process Plant Operators
- Plant Operators
- Production Operators
- Shift Controllers
- Supervisors
- Manufacturing Employees
- Quality Control Staff
- Support Staff

DAY TWO

OVERVIEW

SMART ZONE

Generic Energy Healing Studies

- Learners are introduced to the foundations of natural energy healing. This includes energy healing industry dynamics, professional boundaries, codes of conduct, ethics, professional credibility, communication, listening skills, and the positioning of energy healing in relation to the health care industry.

Human Energy Fields and Energy Management

- Learners gain an understanding of human energy fields, including aura, meridians and chakras. This section also covers physical, spiritual, mental and emotional energy management, as well as self-care practices for the practitioner.

Human Anatomy and Physiology

- Learners are introduced to the basic structure and function of the human body as it relates to energy healing. This includes body systems such as the skeletal, muscular, nervous, endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems.

Healing Practitioner Health, Safety and Compliance

- Learners develop an understanding of health and safety practices in an energy healing environment. This includes hygiene, ventilation, housekeeping, ergonomics, protection of self and others, first aid, access to information, protection of personal information, and legal practice compliance.

DAY TWO

OVERVIEW
